# Sectional doors SPU F42 Plus

## Product description

### Door leaf

#### Door sections:

Double-skinned steel sections, made of hot-galvanized sheet steel, PU-foamed, with steel end caps.

#### Surface finish (steel section texture)

##### M-ribbed:

- Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured
- Equally high door sections for any door height, top door section adjusted, uniform horizontal height arrangement of ribbing
- Height of door sections:
  - Woodgrain-embossed: 468, 475, 479, 488, 500, 520, 525, 531, 550, 562 mm
  - Silkgrain, Decograin: 468, 475, 488, 500, 520, 531, 550, 562 mm

##### L-ribbed:

- Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured
- Equally high door sections for any door height, top door section adjusted, uniform horizontal height arrangement of ribbing
- Height of door sections:
  - Woodgrain-embossed: 468, 475, 479, 488, 500, 520, 525, 531, 550, 562 mm
  - Silkgrain, Decograin: 468, 475, 488, 500, 520, 531, 550, 562 mm

#### Glazing frame:

Anodised aluminium extrusion profiles with steel end caps.

### Surface finish

#### Coating steel sections, Woodgrain or Silkgrain version:

Exterior: Polyester primer-coated with coil coating procedure, based on RAL 9016 Traffic white

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

#### Coating steel sections, Decograin version:

- Exterior:
- Coated with timber design plastic film with embossed timber structure for authentic timber character.
    - Golden Oak: medium brown, golden yellow oak design
    - Dark Oak: walnut-coloured oak design
  - Plastic film coating
    - Titan Metallic CH 703

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

Glazing frame in natural finish E6 / C0

All further steel parts manufactured from hot-galvanized steel. Coated torsion springs.

**For RAL colours, see from page 38 "Surface coating"**

### Frame / track application

Angle frame with side trap guards, made of hot-galvanized sheet steel, screwed tracks, double radius 510 mm.

### Door lock

Manually operated: Inside locking using a shootbolt, rotary latch (with track applications that have low-mounted torsion spring shaft on request) or floor locking included in the door price.

Power-driven: Inside locking using a shootbolt subject to surcharge.

# Sectional doors SPU F42 Plus

## Product description

### Counterbalance

Torsion springs, with carrying cables on the side (with a low headroom track application, a combination of carrying chain and carrying cable). The torsion springs for track applications N, ND, NS, NK, NA, NH, GD, GS, GK, L and LD are designed for at least 25000 closing cycles and for all other track applications for at least 50000 closing cycles.

### Safety-related equipment according to DIN EN 12604

- Manually operated doors using one torsion spring on both sides with approved catch safety device and integrated anti-lift kit \*)
- Manually operated doors using more than one torsion spring with approved spring safety device and with approved catch safety device on both sides as well as integrated anti-lift kit. \*)
- Inner and outer finger trap protection

\* European patent

### Seals

Bottom seal made of 5-chamber EPDM profile with flexible adjustment lip, side seal, lintel seal and intermediate seal between the door sections.

### Performance characteristics according to EN 13241

### SPU F42 Plus

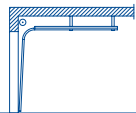

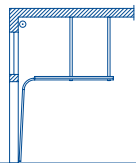

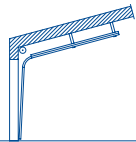

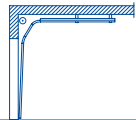

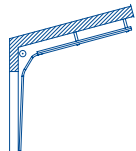

EN 12424	Resistance to wind load	Details for doors without wicket door	Class 3 <sup>2)</sup> Class 4 <sup>1) 2)</sup>
		Details for doors with wicket door	Class 2 <sup>2)</sup> Class 3 <sup>1) 2)</sup>
EN 12425	Water tightness	Details for doors with and without wicket door	Class 3 (70 Pa)
EN 12426	Air permeability	Details for doors without wicket door	Class 2 Class 3 <sup>3) 4) 5)</sup>
		Details for doors with wicket door	Class 1
EN 13241, appendix B EN 12428	Thermal resistance $U = W/(m^2 \cdot K)$	Details for door without wicket door: 5000 × 5000 mm	1,0
		Details for door with wicket door: 5000 × 5000 mm	1,2
EN 717-1	Noise (acoustic value) $R_w = dB$	Details for doors without wicket door <sup>3)</sup>	25
		Details for doors with wicket door <sup>3)</sup>	24

#### Notice:

Higher classes and better thermal insulation values or acoustic values on request!

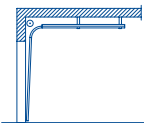

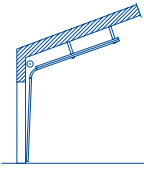

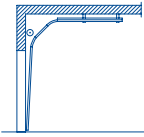

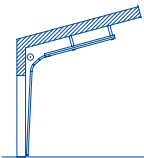

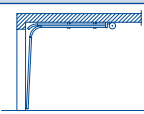

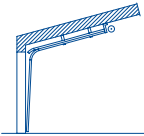

- 1) For door widths up to 4000 mm
- 2) Lower class rating may apply for doors with compound and panel glazing
- 3) For doors without glazing frame
- 4) With ThermoFrame
- 5) With optional set for increased air tightness

Basic model

Version with glazing frame

Version with compound glazing type D  
 Glazing dimensions (W x H): 680 x 210  
 Clear view (W x H): 602 x 132

Version with panel glazing type S  
 Glazing dimensions (W x H): 395 x 270  
 Clear view (W x H): 327 x 202

Version with panel glazing type M  
 Glazing dimensions (W x H): 620 x 270  
 Clear view (W x H): 552 x 202

Version with panel glazing type L  
 Glazing dimensions (W x H): 1004 x 270  
 Clear view (W x H): 936 x 202

The figures are only for visualisation. Please refer to page 15 of this price list or to the technical manual for the exact number and arrangement of glazings.

# Sectional door SPU F42 Plus door sections with finger trap protection

Double-skinned steel section door, door sections 468 to 562 mm high, top door section adjusted, depth 42 mm

## M-ribbed – Silkgrain

The door leaf and the track application N (normal track application) are included in the basic table price.  
Delivery versions must be determined with the listed surcharges.

Track versions and surcharges can be found on pages 4 – 7.

For a product description, see pages 2 and 3.

Doors with a grid height over 5000 mm on request.

Basic model

Version with glazing frame

Version with compound glazing type D  
Glazing dimensions (W × H): 680 × 210  
Clear view (W × H): 602 × 132

Version with panel glazing type S  
Glazing dimensions (W × H): 395 × 270  
Clear view (W × H): 327 × 202

Version with panel glazing type M  
Glazing dimensions (W × H): 620 × 270  
Clear view (W × H): 552 × 202

Version with panel glazing type L  
Glazing dimensions (W × H): 1004 × 270  
Clear view (W × H): 936 × 202

\* Deviating door section height may be required for intermediate heights.

The figures are only for visualisation. Please refer to page 15 of this price list or to the technical manual for the exact number and arrangement of glazings.

# Sectional door SPU F42 Plus door sections with finger trap protection

Double-skinned steel section door, door sections 468 to 562 mm high, top door section adjusted, depth 42 mm

## M-ribbed – Decograin

The door leaf and the track application N (normal track application) are included in the basic table price.  
Delivery versions must be determined with the listed surcharges.

Track versions and surcharges can be found on pages 4–7.

For a product description, see pages 2 and 3.

Doors with a grid height over 5000 mm on request.

# Notes and sketches

# Side door NT 60

## Matching sectional doors SPU F42 Plus

### Product description

#### General rules

Ready-to-fit door set, with lever handle set offset / offset, black plastic, lock with profile cylinder (without cylinder for round cylinder version), two-part lift-off hinges, three-way adjustable.

#### Door leaf

Anodised aluminium extrusion profiles, depth 60 mm, double door seal on 3 sides, EPDM moulded sealing elements in the left and right corner area, double lip seal in the threshold area.

#### Infill

##### Side door for sectional doors SPU F42 Plus

Double-skinned steel sections, made of hot-galvanized sheet steel, PU-foamed, depth 42 mm.

M-ribbed: Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured

L-ribbed: Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured

#### Surface finish

##### Leaf frame and door frame:

Anodised with natural finish E6 / C0

##### Coating steel sections, Woodgrain or Silkgrain version:

Exterior: Polyester primer-coated with coil coating procedure, based on RAL 9016 Traffic white

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

##### Coating steel sections, Decograin version:

- Exterior:
- Coated with timber design plastic film with embossed timber structure for authentic timber character.
    - Golden Oak: medium brown, golden yellow oak design
    - Dark Oak: walnut-coloured oak design
  - Plastic film coating
    - Titan Metallic CH 703

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

All further steel parts manufactured from hot-galvanized steel.

**For RAL colours, see “Surface coating” from page 38.**

#### Performance characteristics in accordance with EN 14351-1

Side door NT 60	SPU F42 Plus
Resistance to wind load	3 C
Thermal resistance ( $U = W/(m^2 \cdot K)$ ) Door size 1250 x 2200	2,9
Further performance characteristics	npd *

\* npd = no performance determined

# Side door NT 60 RC 2

## Matching sectional doors SPU F42 Plus

### Product description

#### General rules

Break-in-resistant door set with resistance class RC 2, with lever handle set offset / offset, black plastic, multiple-point locking with latch, bolt, 2 locking hooks, 2 lock bolts and integrated protective fitting, security bolt on hinge side, profile cylinder acc. to DIN 1303 (point 7 = class 5, point 8 = class D), (round cylinder version prepared for DORMAKABA star M 1515 cylinder) anti-panic function not possible, two-part hinges, three-way adjustable.

#### Door leaf

Anodised aluminium extrusion profiles, depth 60 mm, double door seal on 3 sides, EPDM moulded sealing elements in the left and right corner area, double lip seal in the threshold area.

#### Infill

##### Side door for sectional doors SPU F42 Plus

Double-skinned steel sections, made of hot-galvanized sheet steel, PU-foamed, depth 42 mm.

M-ribbed: Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured

L-ribbed: Exterior Woodgrain-embossed, Silkgrain or Decograin / interior Stucco-textured

#### Surface finish

##### Leaf frame and door frame:

Anodised with natural finish E6 / C0.

##### Coating steel sections, Woodgrain or Silkgrain version:

Exterior: Polyester primer-coated with coil coating procedure, based on RAL 9016 Traffic white

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

##### Coating steel sections, Decograin version:

- Exterior:
- Coated with timber design plastic film with embossed timber structure for authentic timber character.
    - Golden Oak: medium brown, golden yellow oak design
    - Dark Oak: walnut-coloured oak design
  - Plastic film coating
    - Titan Metallic CH 703

Interior: Polyester primer-coated with coil coating procedure, based on RAL 9002 Grey white

All further steel parts manufactured from hot-galvanized steel.

**For RAL colours, see "Surface coating" from page 38.**

#### Performance characteristics in accordance with EN 14351-1

Side door NT 60	SPU F42 Plus
Resistance to wind load	3 C
Thermal resistance ( $U = W/(m^2 \cdot K)$ ) Door size 1250 × 2200	2,9
Break-in resistance equipment (DIN EN 1627)	RC 2
Further performance characteristics	npd *

\* npd = no performance determined

## Preferred colours (internal plant colour code in brackets)

1) Preferred colours:	<ul style="list-style-type: none"> <li>RAL 1015 – Light ivory</li> <li>RAL 6005 – Moss green *</li> <li>RAL 6009 – Fir green *</li> <li>RAL 7012 – Basalt grey</li> <li>RAL 7015 – Slate grey</li> </ul>	<ul style="list-style-type: none"> <li>RAL 7016 – Anthracite grey *</li> <li>RAL 7030 – Stone grey</li> <li>RAL 7035 – Light grey</li> <li>RAL 7039 – Quartz grey</li> <li>RAL 7040 – Window grey</li> </ul>	<ul style="list-style-type: none"> <li>RAL 8028 – Terra brown *</li> <li>RAL 9005 – Jet black *</li> <li>RAL 9006 – White aluminium</li> <li>RAL 9007 – Grey aluminium</li> <li>CH 703 Anthracite metallic (7268) *</li> </ul>
2) Metallic colours:	<ul style="list-style-type: none"> <li>DB 701 Light grey (7168)</li> <li>DB 702 Grey (7111)</li> <li>DB 703 Dark grey (7128)</li> </ul>	Further metallic colours on request.	
3) British Standard:	<ul style="list-style-type: none"> <li>BS 04-E-53 – Poppy red (3142)</li> <li>BS 10-A-05 – Goosewing grey (7152)</li> <li>BS 18-B-25 – Merlin grey (5176)</li> <li>BS 18-C-37 – Wedgewood blue (5191)</li> <li>BS 18-C-39 – Ocean blue (5175)</li> <li>BS 18-E-53 – Cornflower blue (5181)</li> <li>BS 12-B-27 – Olive green (6208)</li> <li>RAL 5003 – Sapphire blue (5003) *</li> <li>RAL 5008 – Grey blue (5008)</li> </ul>	Further colours on request.	

## Notices on surface coatings

- 4) **Important:**  
For the preferred colours White aluminium based on RAL 9006 and Grey aluminium based on RAL 9007 ("wet coating") and the metallic colours, a colour sample relating to the order must be confirmed by the customer in order to avoid complaints with these sensitive metallic colours. Please order a colour sample from Hörmann KG Brockhagen
- 5) Side door infills are manufactured matching the door.

## Additional notices

### In general, the following are not coated:

- The complete frame of the door
- Perforated steel sheet and expanded mesh infills made of stainless steel

### Generally Grey white, based on RAL 9002

- Door leaf reinforcements
- End caps of the door sections

### RAL colours:

- Not available: RAL 4006, RAL 4007 and RAL 9021 as well as fluorescent colours.
- Pearl-effect colours are available on request.

### Attention:

- Coil-coated PU sections in combination with wet coated glazing frames in the same preferred colour may show different colours. In case this is not accepted, the door must be wet-coated completely.
- Dark colours should not be used for double-skinned steel doors and for doors with thermal break that are exposed to the sun, as possible section deflection may restrict the door's function.
- For the listed colour shades, the sectional doors SPU F42 Plus with door width from 4510 to 5000 mm in combination with track applications NH, GD, GS, GK, H, HD, HS, HK, HA, HU, RD, RS, RK, V, VA, VS, VU and WS are fitted with door leaf reinforcement to reduce any possible section deflection caused by sun exposure and require technical inspection.

| 4) Exterior handle recommended   | 9) Articles 637730, 637721, 637722, 637723 cannot be combined  |
| 5) For two 2-wire photocells, a photocell expander is required (see additional accessories article no. 436380 or 639562) |  |

# Shaft operator WA 300 S4

Retrofitting on existing Hörmann door systems is possible!  
Technical clarification required!

## External control 360 inside the industrial control housing

Operator	Control	Function
<ul style="list-style-type: none"> <li>Ready-to-fit shaft operator</li> <li>Power input                             <ul style="list-style-type: none"> <li>– 1-phase current 0.25 kW</li> </ul> </li> <li>Protection category IP 65 (jet-water protected)</li> <li>Suitable track applications and door sizes according to the technical manual</li> <li>Max. 150 door cycles per day</li> <li>Max. 10 door cycles per hour</li> </ul>	<ul style="list-style-type: none"> <li>Integrated microprocessor control in separate housing, with integrated Open-½ / Open-Stop-Close membrane push button and miniature lock</li> <li>Adjustable power limit</li> <li>Protection category IP 65 (jet-water protected)</li> <li>Connection cable with CEE plug IP 44 (splash-water protected)</li> <li>Control fitting directly next to the sectional door</li> <li>Dimensions (W × H): 195 × 310 mm</li> </ul>	<ul style="list-style-type: none"> <li>Opening with impulse</li> <li>Closing with impulse</li> <li>Any second opening height ½ / Open</li> <li>Automatic timer (only in conjunction with warning light connection and photocell / light grille)</li> <li>Prepared for traffic control (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)</li> <li>Soft start and soft stop</li> </ul>

Shaft operator WA 300 S4				
Control	Operator	Fastening options	Article no.	€
<b>External control 360</b> <b>230 V 1-phase current</b> (10 door cycles / hour)	WA 300 S4	For flange-mounting with chain wheel transmission	635369	<b>999</b>
Surcharges for emergency operation			Article no.	€
Secured release for operation from inside		2) Surcharge	637729	<b>51</b>
Lockable release ASE on exterior, for operation from outside, incl. Bowden cable (only in combination with secured release, article no. 637729)		5) Surcharge	637733	<b>165</b>
Control elements			Article no.	€
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug		Surcharge	637105	<b>70</b>
Lockable control with profile half cylinder		Surcharge	637100	<b>70</b>
Mains lead 1.2 m with 230 V CEE plug, for controls with main switch			635486	<b>17,80</b>
Closing edge safety devices / radio activating kit			Article no.	€
Closing edge safety device with optosensors, complete		Surcharge	637725	<b>136</b>
Closing edge safety device with VL 1-LE-300, complete				
<b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.		4) Surcharge	637726	<b>136</b>
Closing edge safety device with VL 2-LE-300, complete; compulsory for doors with wicket door with trip-free threshold (wicket door contact, article no. 637110, required)		4) Surcharge	637727	<b>277</b>
Extension set for Hörmann light grille HLG as safety equipment for the main closing edge in the door surface (integrated into the door frame)		3) 6) 7) 8) 9) Surcharge	636938	<b>681</b>
Extension set for double Hörmann light grille HLG as safety equipment for the main closing edge incl. radio activating kit (omission of coiled cable) for doors with wicket door with trip-free threshold		7) 8) 9) Surcharge	636867	<b>1848</b>
Radio activating kit extension set (omission of coiled cable)		Surcharge	636838	<b>247</b>
<b>Notice:</b> Only available in combination with 637725, 637726, 637727, 636938, 637744 or 637201.				
Wicket door contact				
<b>Notice:</b> • For wicket doors with trip-free threshold: VL 2-LE-300 (article no. 637727) required • For wicket doors with threshold rail, without SKS: AT 3-300 (article no. 637744) required		Surcharge	637110	<b>82</b>
Double housing for closing edge safety device (SKS must be ordered separately); for use in extremely wet areas, protection category IP 66 (powerful jet-water protected)		Surcharge	637055	<b>593</b>
Limit switch for night lock (in conjunction with a closing edge safety device or AT3-300)			637016	<b>54</b>
Roller limit switch for night lock if fitting without door leaf branch boxes (SKS)			637063	<b>82</b>
Activating kit AT3-300, for doors with wicket door and high threshold rail		Surcharge	637744	<b>147</b>

Photocells / light grilles		Article no.	€
Weather protective covers for photocells see page 85.			
One-way photocell EL 301 for floor fitting (for use in interiors and exteriors)	4)	436313	118
One-way photocell EL 51 (for use in interiors and exteriors)	4)	637023	167
One-way photocell EL 51 for fitting to top of industrial frames, sturdy bracket	4)	635340	167
One-way photocell EL 51 for fitting to bottom of industrial frames	4)	635341	167
One-way photocell EL 61, (for use in extremely wet areas, IP 67, powerful jet-water protected)	4)	637222	568
Reflection photocell * RL 52 as a command unit (for use in dry interiors)		637084	202
Reflection photocell * RL 300, floor fitting (for use in dry interiors)		436710	142
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)		436717	195

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

Overview of combination options for optical safety equipment	See page 88
--	-------------

Activating kit for warning lights (photocell / light grille required)		Article no.	€
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing		637530	328
Activating kit for warning lights ZS 360 with multi-function circuit board, 2 yellow LED traffic lights and weekly timer ZSU 2, without extension housing		637780	504
Activating kit with 2 LED traffic lights, without extension housing	2-arm red / green (230 V / 50 Hz)	637731	475
	1-arm red / green (24 V DC)	638955	475
Activating kit for warning lights MP 360 with 2 LED traffic lights and weekly timer ZSU 2, without extension housing	2-arm red / green (230 V / 50 Hz)	637779	771
	1-arm red / green (24 V DC)	638956	771

Additional accessories	Article no.	€
Power supply unit, input voltage 230 V AC, output voltage 24 V DC / 24 W	4548491	60
Power supply unit connection accessories (article no. 4548491)	636356	21
Magnet switch with fixing material, for electric locking with air lock doors or loading ramps	436339	73
Multi-function circuit board with 2 relays (programmable)	637026	107
Circuit board for limit switch reporting with 2 relays (only in combination with multi-function circuit board, traffic control or central control)	637028	58
Circuit board for limit switch reporting with 2 relays and fuse (only in combination with multi-function circuit board, traffic control or central control)	637052	76
Circuit board for central control / smoke detector device	637243	112
Summer / winter operation activating kit with function report	637036	404
Extension housing for industrial door controls (semi-housing)	637014	68
Double housing for control for extremely wet areas, IP 66 (powerful jet-water protected)	637035	450

8k2 safety contact strip (Not possible in doors with wicket door with trip-free threshold!)			Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	3) 4)	Per m	637201	128
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead			637206	196
Pre-assembly of 8k2 end unit, right connection, 0.5 m connecting lead			637204	196
Pre-assembly of 8k2 end unit, left connection, 2.5 m connecting lead			637207	196
Pre-assembly of 8k2 end unit, right connection, 2.5 m connecting lead			637205	196
Activating kit for closing edge safety device 8K2 <b>Notice:</b> Required for safety contact strip 8K2.			638393	160

Additional accessories	See pages 72 – 86
------------------------	-------------------

<b>Notices:</b>	<ul style="list-style-type: none"> <li>Please note the technical manual!</li> <li>When you order a sectional door with operator, the safety catch is omitted with the sectional door as the operator takes over the function of the securing load carrier. This is why the door must be fitted with an operator in all cases. It is not secured against falling as a manually operated door.</li> </ul>

| 5) Exterior handle recommended                                      | - With RM ≤ 2500 mm (track application V)       |
| 6) Not suitable for doors with wicket door with trip-free threshold | - With RM < 2625 mm (track application H)       |

# Shaft operator WA 400 / WA 400 M

## Control A 445

Operator	Control	Function
<ul style="list-style-type: none"> <li>Ready-to-fit shaft operator with cable slack device</li> <li>Power input: <ul style="list-style-type: none"> <li>3-phase current: 0.37 kW</li> <li>1-phase current: 0.30 kW</li> </ul> </li> <li>Protection category IP 65 (jet-water protected)</li> <li>Electronic absolute encoder (AWG) for determining the door position</li> </ul>	<ul style="list-style-type: none"> <li>Microprocessor control in separate housing, with Open-Stop-Close membrane push button integrated in housing, miniature lock</li> <li>Adjustable power limit</li> <li>Protection category IP 65 (jet-water protected)</li> <li>Self-monitoring closing edge safety device (SKS) with optosensors</li> <li>Connection cable with CEE plug in protection category IP 44 (splash-water protected)</li> <li>Fitting of the control immediately next to the sectional door, plug-in door leaf sensors</li> <li>Dimensions (W × H): 195 × 310 mm</li> </ul>	<ul style="list-style-type: none"> <li>Opening with impulse</li> <li>Closing with impulse</li> </ul>

We recommend using a 400 V 3-phase unit due to its longer on-time and smoother running.

Shaft operator WA 400 / WA 400 M				
Control	Operator	Fastening options	Article no.	€
<b>Control A 445</b> <b>400 V 3-phase current</b> (with SKS, S3–60 % ED)	WA 400	To flange, not for track application L / LD or double spring shaft, with maintenance release	635515	<b>1052</b>
	WA 400	With chain box, not with double spring shaft, with maintenance release	635516	<b>1224</b>
	WA 400 M	For central mounting <sup>1)</sup> , not for track application L / LD or double spring shaft, with secured release	635080	<b>1451</b>

Surcharge for emergency operation (only for operators to flange or chain box)		Article no.	€
Emergency hand chain	Surcharge	636935	<b>54</b>
Rigid emergency crank handle (observe space requirement!)	Surcharge	636936	<b>24</b>
Jointed emergency crank handle	Surcharge	636937	<b>36</b>

Optional extras for shaft operator WA 400 with control A / B 445				Article no.	€	
Optosensors are discontinued (cable slack switch and junction box for door leaf and frame are included in the scope of delivery)			8) 9) 11)	637139	–	
Secured release (from inside) <sup>2)</sup>	WA 400	For flanging or with chain box	Surcharge	637025	131	
	WA 400 M	For central mounting, included as standard (emergency hand chain not available)		–		
Lockable release ASE on exterior, for operation from outside, incl. Bowden cable <b>Notice:</b> Only in conjunction with secured release from the inside (article no. 637025)			3)	Surcharge	637733	165
Operator with increased on-time ED+ (+ 5 cycles / hour) – only with A 445 / 400 V 3-phase units				Surcharge	637030	215
Double housing for closing edge safety device for extremely wet areas, IP 66 (powerful jet-water protected)				Surcharge	637055	593
Double housing for control for extremely wet areas, IP 66 (powerful jet-water protected)					637035	450
Extension housing for industrial door controls (semi-housing)					637014	68
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug				Surcharge	637105	70
Mains lead 1 m with CEE plug (A control 400 V) for separate main switch					638094	54
Mains lead 1 m with CEE plug (B control 230 V) for separate main switch					638095	50
Lockable control with profile half cylinder				Surcharge	637100	70
Wicket door contact				Surcharge	637110	82
Limit switch for night lock					637016	54
Multi-function circuit board with 2 relays (programmable)					637026	107
Circuit board for limit switch reporting with 2 relays (only in conjunction with a multi-function circuit board)					637028	58
Circuit board for limit switch reporting with 2 relays and fuse (only in combination with multi-function circuit board, traffic control or central control)					637052	76
Activating kit for door leaf (SKS), max. assembly height 35 mm					637186	415
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing					637530	328

Photocells / light grilles / radio activating kit			Article no.	€
Weather protective covers for photocells see page 85.				
Extension set for leading photocell VL 1-LE, incl. floor slides				
<b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.	5) 6) 9)		637108	–
Extension set for leading photocell VL 2-LE, incl. floor slides; mandatory for doors with wicket door with trip-free threshold	5) 9)	Surcharge	637107	173
Extension set for Hörmann light grille HLG as safety equipment for the main closing edge in the door surface (integrated into the door frame) <b>Notice:</b> Not in conjunction with RC 2!	5) 6) 7) 8) 10) 11)	Surcharge	636938	681
Extension set for double Hörmann light grille HLG as safety equipment for the main closing edge incl. radio activating kit (omission of coiled cable) for doors with wicket door with threshold rail	4) 5) 7) 8) 10) 11)	Surcharge	636867	1848
Radio activating kit extension set (omission of coiled cable) <b>Notice:</b> Only in combination with the optosensors as standard, 637107, 637108, 636938 or 637201 available.		Surcharge	636838	247
One-way photocell EL 51 (for use in interiors and exteriors)	9)		637023	167
One-way photocell EL 51 (for fitting to top of industrial frames), sturdy bracket	9)		635340	167
One-way photocell EL 51 (for fitting to bottom of industrial frames)	9)		635341	167
One-way photocell EL 61 for extremely wet areas, IP 67 (powerful jet-water protected)	9)		637222	568
Reflection photocell * RL 50 for door widths 500 – 8000 mm (for use in dry interiors)			637086	195
Reflection photocell * RL 50, for door widths from 500 – 8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)			635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm			638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)			637084	202

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

**Overview of combination options for optical safety equipment**

See page 88

8k2 safety contact strip (Not possible for doors with wicket door with trip-free threshold and for doors > 5000 mm RM!)			Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	5) 8) 9)	Per m	637201	128
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead			637206	196

One-way photocell EL 51 (for fitting to bottom of industrial frames)	8)		635341	167
One-way photocell EL 61 for extremely wet areas, IP 67 (powerful jet-water protected)	8)		637222	568
Reflection photocell * RL 50 for door widths 500 – 8000 mm (for use in dry interiors)			637086	195
Reflection photocell * RL 50, for door widths from 500 – 8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)			635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm			638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)			637084	202

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

**Overview of combination options for optical safety equipment** See page 88

Activating kit for warning lights (photocell / light grille required)		Article no.	€
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing		637530	328
Activating kit for warning light ZS 400 with 2 yellow LED traffic lights and weekly timer ZSU 2, with extension housing		637531	536
Activating kit for warning lights MP 400 traffic control with 2 LED traffic lights, with extension housing	2-arm red / green (230 V / 50 Hz)	637532	621
	1-arm red / green (24 V DC)	638957	621
Activating kit for warning light MP 400 traffic control with 2 LED traffic lights and weekly timer ZSU 2, with extension housing	2-arm red / green (230 V / 50 Hz)	637533	803
	1-arm red / green (24 V DC)	638958	803

Further optional extras (photocell / light grille required)		Article no.	€
Summer / winter operation activating kit with function report		637036	404

8k2 safety contact strip (Not possible for doors with wicket door with trip-free threshold and for doors > 5000 mm RM!)			Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	7) 8)	Per m	637201	128
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead			637206	196
Pre-assembly of 8k2 end unit, right connection, 0.5 m connecting lead			637204	196
Pre-assembly of 8k2 end unit, left connection, 2.5 m connecting lead			637207	196
Pre-assembly of 8k2 end unit, right connection, 2.5 m connecting lead			637205	196

Control variant		Article no.	€
<b>Control B 460,</b> 230 V 1-phase current (with SKS, S3 – 25 % ED), max. door size 4500 × 4500 mm	For WA 400 to flange, not for track application L / LD or double spring shaft with maintenance release	635520	Same price as for control A 460
	For WA 400 with chain box, not with double spring shaft, with maintenance release	635521	
	For WA 400 M for centre fitting, not for track application L / LD or double spring shaft, with secured release	635085	

**Additional accessories** See pages 72 – 86

Shaft operator WA 500 FU / WA 500 M-FU				
Control	Operator	Fastening options	Article no.	€
<b>Control 545</b> <b>230 V 1-phase current</b> (with closing edge safety device, 25 door cycles / hour)	WA 500 FU	To flange, not for track application L / LD, with maintenance release	4514486	<b>1742</b>
	WA 500 FU	With chain box, with maintenance release	4514487	<b>1992</b>
	WA 500 M-FU	For centre mounting <sup>1)</sup> , not for track applications L / LD, with secured release	4514488	<b>2121</b>

**Important:** • The operator fulfils the requirements of DIN 14092 for fire station doors with regard to their opening speed of at least 0.25 m/s.

Surcharge for emergency operation (only for operators to flange or chain box)		Article no.	€
Emergency hand chain	Surcharge	636935	<b>54</b>
Rigid emergency crank handle (observe space requirement!)	Surcharge	636936	<b>24</b>
Jointed emergency crank handle	Surcharge	636937	<b>36</b>

Optional extras for shaft operator WA 500 FU with control 545				Article no.	€
Secured release (from inside) <sup>2)</sup>	WA 500 FU	For flanging or with chain box	Surcharge	637025	131
	WA 500 M-FU	For central mounting, included as standard (emergency hand chain not available)		–	–
Lockable release ASE on exterior, for operation from outside, incl. Bowden cable <b>Notice:</b> Only in conjunction with secured release from the inside (article no. 637025)			<sup>3)</sup> Surcharge	637733	165
CAT adapter box Required to shorten the network cable (connection cable between operator and control), wiring tool required (article no. 4514028)				4514011	27
Wiring tool for CAT adapter box (can be reused several times)				4514028	118
Battery unit for control 545/560, incl. batteries For buffering the time and date of the control unit if it is not supplied with mains voltage for more than 60 hours.				4514027	21
Widescan (intelligent command unit and to secure the door)  <b>Notices:</b> <ul style="list-style-type: none"><li>Partial opening function is not possible in combination with control 545!</li><li>If the door width is wider than the fitting height, then another Widescan is required to secure the door.</li></ul>				4981575	1121
Widescan holder (galvanized steel)			Each	4982364	95
HCP-Hub 4 (required when more than 1 HCP bus participant is needed)				4510206	83
Operator with increased on-time ED+ (+5 cycles / hour)			Surcharge	637030	215
Double housing for closing edge safety device for extremely wet areas, IP 66 (powerful jet-water protected)			Surcharge	637055	593
Double housing for control for extremely wet areas, IP 66 (powerful jet-water protected)				637035	450
Extension housing for industrial door controls (semi-housing)				637014	68
Fitting struts to fasten the control / extension housing to the door frame				637696	30
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug			Surcharge	637105	70
Mains lead 1 m with CEE plug (230 V) for separate main switch				4514249	50
Lockable control with profile half cylinder			Surcharge	637100	70
Wicket door contact			Surcharge	637110	82
Limit switch for night lock				637016	54
Multi-function circuit board with 2 relays (programmable)				637026	107
Circuit board for limit switch reporting with 2 relays (only in conjunction with a multi-function circuit board or central control)				637028	58

Optional extras for shaft operator WA 500 FU with control 545	Article no.	€
Circuit board for limit switch reporting with 2 relays and fuse (only in combination with multi-function circuit board or central control)	637052	<b>76</b>
Circuit board for central control	637243	<b>112</b>
Activating kit for door leaf (SKS), max. assembly height 35 mm	637186	<b>415</b>

Photocells / light grilles / radio activating kit			Article no.	€
Weather protective covers for photocells see page 85.				
Extension set for leading photocell VL 1-LE, incl. floor slides				
<b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.	5) 8)		637108	–
Extension set for leading photocell VL 2-LE, incl. floor slides; mandatory for doors with wicket door with trip-free threshold	8)	Surcharge	637107	173
Extension set for Hörmann light grille HLG as safety equipment for the main closing edge in the door surface (integrated into the door frame) <b>Notice:</b> Not in conjunction with RC 2!	5) 6) 7) 9)	Surcharge	636938	681
Extension set for double Hörmann light grille HLG as safety equipment for the main closing edge incl. radio activating kit (omission of coiled cable) for doors with wicket door with threshold rail	4) 6) 7) 9)	Surcharge	636867	1848
Radio activating kit extension set (omission of coiled cable) <b>Notice:</b> Only in combination with the optosensors as standard, 637107, 637108, 636938 or 637201 available.		Surcharge	636838	247
One-way photocell EL 51 (for fitting to top of industrial frames), sturdy bracket	8)		635340	167
One-way photocell EL 51 (for fitting to bottom of industrial frames)	8)		635341	167
One-way photocell EL 61 for extremely wet areas, IP 67 (powerful jet-water protected)	8)		637222	568
One-way photocell EL 301 for floor fitting Application areas: indoor and outdoor applications	4)		436313	118
One-way photocell EL 401 (bottom frame prepared at the factory for fitting) <b>Notice:</b> Not in conjunction with RC 2, VL-LE or HLG!			437922	71
Reflection photocell * RL 50, for door widths from 500 – 8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)			635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm			638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)			637084	202
Reflection photocell * RL 300, industrial floor fitting (for use in dry interiors)			635022	195
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)			436717	195

# Shaft operator WA 500 FU / WA 500 M-FU

## Control 560 with soft start and soft stop

Door travel speed  
Up to 1 m/s

### Operator

- Ready-to-fit shaft operator with frequency converter
- Power input:
  - 1-phase current: 0.72 kW
- Protection category IP 65 (jet-water protected)
- Electronic absolute encoder (AWG) for determining the door position
- Optional door travel speed up to 1 m/s
- Constant door travel speed, even with track applications H and V
- Standby approx. 1 W

### Control

- Microprocessor control in separate housing with integrated Open-½ / Open-Stop-Close membrane push button, miniature lock
- Protection category IP 65 (jet-water protected)
- Self-monitoring closing edge safety device (SKS) with optosensors
- Cable slack devices
- Option relay as standard
- Bluetooth for BlueControl as standard
- Keypad illumination
- Energy saving mode (standby approx. 1 W)
- Connection cable with CEE plug in protection category IP 44 (splash-water protected)

- Fitting of the control immediately next to the sectional door, plug-in door leaf sensors
- Dimensions (W × H): 195 × 310 mm

### Function

- Soft open with impulse
- Soft close with impulse
- Any second opening height (½ / Open)
- High-speed when opening
- Automatic timer (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)
- Prepared for traffic control (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)

Shaft operator WA 500 FU / WA 500 M-FU				
Control	Operator	Fastening options	Article no.	€
<b>Control 560</b> <b>230 V 1-phase current</b> (with closing edge safety device, 25 door cycles / hour)	WA 500 FU	To flange, not for track application L / LD, with maintenance release	4514504	<b>2142</b>
	WA 500 FU	With chain box, with maintenance release	4514505	<b>2393</b>
	WA 500 M-FU	For central mounting <sup>1)</sup> , not for track application L / LD, with secured release	4514508	<b>2522</b>

**Important:** • The operator fulfils the requirements of DIN 14092 for fire station doors with regard to their opening speed of at least 0.25 m/s.

Surcharge for emergency operation (only for operators to flange or chain box)		Article no.	€
Emergency hand chain	Surcharge	636935	<b>54</b>
Rigid emergency crank handle (observe space requirement!)	Surcharge	636936	<b>24</b>
Jointed emergency crank handle	Surcharge	636937	<b>36</b>

Door travel speed up to 1 m/s	Article no.	€
Optional door travel speed up to 1 m/s Only possible in combination with article no. 4514505, WA 500 FU with chain box.	4514083	–
<b>Notice:</b>		
• With the door size range 1, the speed is max. 0.7 m/s (1 m/s only after technical inspection).		
• Cannot be selected with door size range 3. Here, a speed of 1 m/s is reached as standard.		
• For door widths > 6000 mm on request.		

Optional extras for shaft operator WA 500 FU with control 560				Article no.	€
Secured release (from inside) <sup>2)</sup>	WA 500 FU	For flanging or with chain box	Surcharge	637025	131
	WA 500 M-FU	For central mounting, included as standard (emergency hand chain not available)		–	–
Lockable release ASE on exterior, for operation from outside, incl. Bowden cable <b>Notice:</b> Only in conjunction with secured release from the inside (article no. 637025)			<sup>3)</sup> Surcharge	637733	165
CAT adapter box Required to shorten the network cable (connection cable between operator and control), wiring tool required (article no. 4514028)				4514011	27
Wiring tool for CAT adapter box (can be reused several times)				4514028	118
Battery unit for control 545 / 560, incl. batteries For buffering the time and date of the control unit if it is not supplied with mains voltage for more than 60 hours.				4514027	21
Widescan (intelligent command unit and to secure the door)  <b>Notice:</b> • If the door width is wider than the fitting height, then another Widescan is required to secure the door.				4981575	1121
Widescan holder (galvanized steel)			Each	4982364	95
HCP-Hub 4 (required when more than 2 HCP bus participants are needed)				4510206	83
Operator with increased on-time ED+ (+5 cycles / hour)			Surcharge	637030	215
Double housing for closing edge safety device for extremely wet areas, IP 66 (powerful jet-water protected)			Surcharge	637055	593
Double housing for control for extremely wet areas, IP 66 (powerful jet-water protected)				637035	450
Extension housing for industrial door controls (semi-housing)				637014	68
Fitting struts to fasten the control / extension housing to the door frame				637696	30
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug			Surcharge	637105	70
Mains lead 1 m with CEE plug (230 V) for separate main switch				4514249	50
Lockable control with profile half cylinder			Surcharge	637100	70
Wicket door contact			Surcharge	637110	82

Optional extras for shaft operator WA 500 FU with control 560	Article no.	€
Limit switch for night lock	637016	54
Multi-function circuit board with 2 relays (programmable)	637026	107
Circuit board for limit switch reporting with 2 relays (only in conjunction with a multi-function circuit board, traffic control or central control)	637028	58
Circuit board for limit switch reporting with 2 relays and fuse (only in combination with multi-function circuit board, traffic control or central control)	637052	76
Circuit board for central control	637243	112
Activating kit for door leaf (SKS), max. assembly height 35 mm	637186	415

Photocells / light grilles / radio activating kit	Article no.	€
Weather protective covers for photocells see page 85.		
Extension set for leading photocell VL 1-LE, incl. floor slides <b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.	637108	–
Extension set for leading photocell VL 2-LE, incl. floor slides; mandatory for doors with wicket door with trip-free threshold	637107	173
Extension set for Hörmann light grille HLG as safety equipment for the main closing edge in the door surface (integrated into the door frame) <b>Notice:</b> Not in conjunction with RC 2!	636938	681
Extension set for double Hörmann light grille HLG as safety equipment for the main closing edge incl. radio activating kit (omission of coiled cable) for doors with wicket door with threshold rail	636867	1848
Radio activating kit extension set (omission of coiled cable) <b>Notice:</b> Only available in combination with optosensors as standard; 637107, 637108, 636938 or 637201 can be selected.	636838	247
One-way photocell EL 51 (for fitting to top of industrial frames), sturdy bracket	635340	167
One-way photocell EL 51 (for fitting to bottom of industrial frames)	635341	167
One-way photocell EL 61 for extremely wet areas, IP 67 (powerful jet-water protected)	637222	568
One-way photocell EL 301 for floor fitting (Application areas: indoor and outdoor applications)	436313	118
One-way photocell EL 401 (bottom frame prepared at the factory for fitting) <b>Notice:</b> Not in conjunction with RC 2, VL-LE or HLG!	437922	71
Reflection photocell * RL 50, for door widths from 500–8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)	635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm	638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)	637084	202
Reflection photocell * RL 300, industrial floor fitting (for use in dry interiors)	635022	195
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)	436717	195

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

**Overview of combination options for optical safety equipment** See page 88

Activating kits for warning lights	Article no.	€
Activating kit for warning lights with multi-function circuit board and 2 yellow LED traffic lights, without extension housing	637530	328
Activating kit for warning lights, traffic control with 2 LED traffic lights, without extension housing	637731	475
	638955	475

Further optional extras (photocell / light grille required)	Article no.	€
Summer / winter operation activating kit with function report	637036	404

Safety contact strip 8k2 (not possible for doors with wicket door with threshold rail!)	Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	637201	128
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead	637206	196
Pre-assembly of 8k2 end unit, right connection, 0.5 m connecting lead	637204	196
Pre-assembly of 8k2 end unit, left connection, 2.5 m connecting lead	637207	196
Pre-assembly of 8k2 end unit, right connection, 2.5 m connecting lead	637205	196

**Additional accessories** See pages 72–86

- |   |   |
|---|---|
| 1) Use of WA 500 M only after technical inspection                  | 7) Not in conjunction with VL 1-LE / VL 2-LE    |
| 2) We recommend the emergency operation stated on page 42           | 8) Not in conjunction with light grille         |
| 3) Exterior handle recommended                                      | 9) Not for sectional doors:                     |
| 4) Not in conjunction with one-way photocells                       | - With RM < 3125 mm (track application N and L) |
| 5) Not suitable for doors with wicket door with trip-free threshold | - With RM ≤ 2500 mm (track application V)       |
| 6) Not suitable for wash hall doors                                 | - With RM < 2625 mm (track application H)       |

**Notices:**

- Please note the technical manual! Retrofitting of operators and controls on existing door systems on request.
- When you order a sectional door with operator, the safety catch is omitted with the sectional door as the operator takes over the function of the securing load carrier. This is why the door must be fitted with an operator in all cases. It is not secured against falling as a manually operated door.

-------------------------------	-------------------

- |  |   |
|--|---|
| 1) Not in conjunction with one-way photocells                        | 7) Not for sectional doors:                         |
| 2) Not if closing edge safety device is omitted (article no. 637149) | - With RM < 3125 mm (track application N and L)     |
| 3) Not suitable for doors with wicket door with trip-free threshold  | - With RM ≤ 2500 mm (track application V)           |
| 4) Not suitable for wash hall doors                                  | - With RM < 2625 mm (track application H)           |
| 5) Not in conjunction with VL 1-LE / VL 2-LE                         | 8) Not in combination with safety contact strip 8k2 |
| 6) Not in conjunction with light grille                              | 9) Not suitable for doors with wicket door          |
|  | 10) Exterior handle recommended                     |

**Notices:**

- Please note the technical manual! Retrofitting of operators and controls on existing door systems on request.
- When you order a sectional door with operator, the safety catch is omitted with the sectional door as the operator takes over the function of the securing load carrier. This is why the door must be fitted with an operator in all cases. It is not secured against falling as a manually operated door.

# Chain drive operator ITO 400

## Control A 460

Operator	Control	Function
<ul style="list-style-type: none"> <li>Ready-to-fit chain drive operator</li> <li>For track applications N, ND, L, LD</li> <li>Max. door height 4500 mm</li> <li>With emergency release from inside</li> <li>Power input: 0.37 kW</li> <li>Protection category IP 65 (jet-water protected)</li> <li>Electronic absolute encoder (AWG) for determining the door position</li> <li>Doors with wicket door on request</li> </ul>	<ul style="list-style-type: none"> <li>Microprocessor control in separate housing with integrated Open-½ / Open-Stop-Close membrane push button, miniature lock</li> <li>Adjustable power limit</li> <li>Protection category IP 65 (jet-water protected)</li> <li>Self-monitoring closing edge safety device (SKS) with optosensors</li> <li>Connection cable with CEE plug in protection category IP 44 (splash-water protected)</li> <li>Fitting of the control immediately next to the sectional door, plug-in door leaf sensors</li> <li>Dimensions (W × H): 195 × 310 mm</li> </ul>	<ul style="list-style-type: none"> <li>Opening with impulse</li> <li>Closing with impulse</li> <li>Any second opening height (½ / Open)</li> <li>Automatic timer (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)</li> <li>Prepared for traffic control (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)</li> </ul>

We recommend using a 400 V 3-phase unit due to its longer on-time and smoother running.

One-way photocell EL 301 for floor fitting (Application areas: indoor and outdoor applications)	4)		436313	118
One-way photocell EL 401 (bottom frame prepared at the factory for fitting) <b>Notice:</b> Not in conjunction with RC 2, VL-LE or HLG!			437922	71
Reflection photocell * RL 50, for door widths from 500 – 8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)			635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm			638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)			637084	202
Reflection photocell * RL 300, industrial floor fitting (for use in dry interiors)			635022	195
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)			436717	195

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

**Overview of combination options for optical safety equipment** See page 88

Activating kit for warning lights (photocell / light grille required)	Article no.	€
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing	637530	328
Activating kit for warning light ZS 400 with 2 yellow LED traffic lights and weekly timer ZSU 2, with extension housing	637531	536

Further optional extras (photocell / light grille required)	Article no.	€
Summer / winter operation activating kit with function report	637036	404

8k2 safety contact strip (Not possible in doors with wicket door with trip-free threshold!)			Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	4) 5)	Per m	637201	128
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead			637206	196
Pre-assembly of 8k2 end unit, right connection, 0.5 m connecting lead			637204	196
Pre-assembly of 8k2 end unit, left connection, 2.5 m connecting lead			637207	196
Pre-assembly of 8k2 end unit, right connection, 2.5 m connecting lead			637205	196

**Additional accessories** See pages 72 – 86

- |   |   |
|---|---|
| 1) Not in conjunction with one-way photocells                       | 6) Not for sectional doors:                     |
| 2) Not suitable for doors with wicket door with trip-free threshold | - With RM < 3125 mm (track application N and L) |
| 3) Not suitable for wash hall doors                                 | - With RM ≤ 2500 mm (track application V)       |
| 4) Not in conjunction with VL 1-LE / VL 2-LE                        | - With RM < 2625 mm (track application H)       |
| 5) Not in conjunction with light grille                             | 7) Exterior handle recommended                  |

**Notices:**

- Please note the technical manual! Retrofitting of operators and controls on existing door systems on request.
- When you order a sectional door with operator, the safety catch is omitted with the sectional door as the operator takes over the function of the securing load carrier. This is why the door must be fitted with an operator in all cases. It is not secured against falling as a manually operated door.

# Chain drive operator ITO 500 FU

Surcharges for emergency operation			Article no.	€
Secured release for operation from inside	7	Surcharge	637025	<b>131</b>
Lockable release ASE on exterior, for operation from outside, incl. Bowden cable (only in combination with secured release, article no. 637025)	7	Surcharge	637733	<b>165</b>

Optional extras for chain drive operator ITO 500 FU with control 560		Article no.	€
Emergency release from outside for ITO 500 – only in conjunction with door lock for exterior and interior operation		637050	<b>115</b>
Special track length (consider the basic price for the next largest door height)	Surcharge	637115	<b>220</b>
Adjustable suspension for side guide (257 – 1516 mm)		636945	<b>73</b>
CAT adapter box Required to shorten the network cable (connection cable between operator and control), wiring tool required (article no. 4514028)		4514011	<b>27</b>
Wiring tool for CAT adapter box (can be reused several times)		4514028	<b>118</b>
Battery unit for control 545 / 560, incl. batteries For buffering the time and date of the control unit if it is not supplied with mains voltage for more than 60 hours.		4514027	<b>21</b>
Widescan (intelligent command unit and to secure the door)		4981575	<b>1121</b>
<b>Notice:</b> • If the door width is wider than the fitting height, then another Widescan is required to secure the door.			
Widescan holder (galvanized steel)	Each	4982364	<b>95</b>
HCP-Hub 4 (required when more than 2 HCP bus participants are needed)		4510206	<b>83</b>
Operator with increased on-time ED+ (+5 cycles / hour)	Surcharge	637030	<b>215</b>
Double housing for closing edge safety device for extremely wet areas, protection category IP 66 (powerful jet-water protected)	Surcharge	637055	<b>593</b>
Double housing for control for extremely wet areas, protection category IP 66 (powerful jet-water protected)		637035	<b>450</b>
Extension housing for industrial door controls (semi-housing)		637014	<b>68</b>
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug	Surcharge	637105	<b>70</b>
Mains lead 1 m with CEE plug (230 V) for separate main switch		4514249	<b>50</b>
Lockable control with profile half cylinder	Surcharge	637100	<b>70</b>
Wicket door contact	Surcharge	637110	<b>82</b>
Limit switch for night lock		637016	<b>54</b>
Multi-function circuit board with 2 relays (programmable)		637026	<b>107</b>
Circuit board for limit switch reporting with 2 relays (only in conjunction with a multi-function circuit board, traffic control or central control)		637028	<b>58</b>
Circuit board for limit switch reporting with 2 relays and fuse (only in combination with multi-function circuit board, traffic control or central control)		637052	<b>76</b>
Circuit board for central control		637243	<b>112</b>

Photocells / light grilles / radio activating kit			Article no.	€
Weather protective covers for photocells see page 85.				
Extension set for leading photocell VL 1-LE, incl. floor slides <b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.	2) 5)		637108	–
Extension set for leading photocell VL 2-LE, incl. floor slides; mandatory for doors with wicket door with trip-free threshold	5)	Surcharge	637107	173
Extension set for Hörmann light grille HLG as safety equipment for the main closing edge in the door surface (integrated into the door frame) <b>Notice:</b> Not in conjunction with RC 2!	2) 3) 4) 6)	Surcharge	636938	681
Extension set for double Hörmann light grille HLG as safety equipment for the main closing edge incl. radio activating kit (omission of coiled cable) for doors with wicket door with threshold rail	1) 3) 4) 5) 6)	Surcharge	636867	1848
Radio activating kit extension set (omission of coiled cable) <b>Notice:</b> Only available in combination with optosensors as standard; 637107, 637108, 636938 or 637201 can be selected.		Surcharge	636838	247
One-way photocell EL 51 (for fitting to top of industrial frames), sturdy bracket	5)		635340	167
One-way photocell EL 51 (for fitting to bottom of industrial frames)	5)		635341	167
One-way photocell EL 61 for extremely wet areas, IP 67 (powerful jet-water protected)	5)		637222	568
One-way photocell EL 301 for floor fitting (Application areas: indoor and outdoor applications)	4)		436313	118
One-way photocell EL 401 (bottom frame prepared at the factory for fitting) <b>Notice:</b> Not in conjunction with RC 2, VL-LE or HLG!			437922	71
Reflection photocell * RL 50, for door widths from 500 – 8000 mm, for fitting to top of industrial frames, sturdy holder (for use in dry interiors)			635344	195
Reflector for photocell RL 50, for door widths from 8000 mm to 12000 mm			638163	13
Reflection photocell * RL 52 as a command unit (for use in dry interiors)			637084	202
Reflection photocell * RL 300, industrial floor fitting (for use in dry interiors)			635022	195
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)			436717	195

**\* Notice:**

Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.

<b>Overview of combination options for optical safety equipment</b>	See page 88
---	-------------

Activating kit for warning lights (photocell / light grille required)	Article no.	€
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing	637530	328
Activating kit with 2 LED traffic lights, without extension housing	2-arm red / green (230 V / 50 Hz)	637731
	1-arm red / green (24 V DC)	638955

Further optional extras (photocell / light grille required)	Article no.	€
Summer / winter operation activating kit with function report	637036	404

8k2 safety contact strip (Not possible in doors with wicket door with trip-free threshold!)	Article no.	€
Safety contact end unit 8k2, protection category IP 67 (LZ + 40 mm)	4) 5) Per m	637201
Pre-assembly of 8k2 end unit, left connection, 0.5 m connecting lead		637206
Pre-assembly of 8k2 end unit, right connection, 0.5 m connecting lead		637204
Pre-assembly of 8k2 end unit, left connection, 2.5 m connecting lead		637207
Pre-assembly of 8k2 end unit, right connection, 2.5 m connecting lead		637205

**Notices:**

- Please note the technical manual! Retrofitting of operators and controls on existing door systems on request.
- When you order a sectional door with operator, the safety catch is omitted with the sectional door as the operator takes over the function of the securing load carrier. This is why the door must be fitted with an operator in all cases. It is not secured against falling as a manually operated door.

# Operator SupraMatic HT for industrial sectional doors

## Series 3

### With integrated control

#### Operator

- Use in dry areas
- For track applications N and L
- Doors with wicket door on request
- ALR F42 Glazing doors and real glass available on request

#### Number of parking spaces

- Max. 20 door cycles (Open / Close) per hour
- Max. 300 door cycles (Open / Close) per day

#### Operator data

- 24 V DC gear drive, mains voltage 230–240 V AC, 0.2 kW, pull and push force 1000 N, brief peak force 1200 N, opening speed max. approx. 22 cm/s, protection category IP 20

#### Control electronics

- Micro-processor control, automatic teach-in of automatic safety cut-out and end-of-travel positions, soft start and soft stop adjustable, double 7-segment display, adjustable partial opening, adjustable automatic timer, hold-open phase after activation 30 – 180 seconds, impulse control

#### Boom FS 60

- Self-supporting steel guide with polyurethane toothed belt and steel wires, plastic slide carriage, return pulley with ball-bearing, operator disc with slide bearing, 1-part, completely pre-assembled

#### Standard equipment

- Quick release operated from the inside, connecting lead with CEE plug, second suspension for boom FS 60, anti-lift kit as safety equipment
- Universal installation bracket for up-and-over doors and sectional doors!

#### Housing

- Aluminium and plastic

#### Temperature range

- From –20 °C to +60 °C

Without radio remote control!  
Accessories see from page 67.

#### Notice:

The use of a fitting bracket is mandatory! Installation of a photocell is required if the automatic timer is activated!

# Operator SupraMatic HT for industrial sectional doors

## Series 3

### With external control 360 in industrial control housing

#### Operator

- Use in dry areas
- For track applications N and L
- Doors with wicket door on request
- ALR F42 Glazing doors and real glass available on request

#### Number of parking spaces

- Max. 20 door cycles (Open / Close) per hour
- Max. 300 door cycles (Open / Close) per day

#### Operator data

- 24 V DC gear drive, mains voltage 230–240 V AC, 0.2 kW, pull and push force 1000 N, brief peak force 1200 N, opening speed max. approx. 22 cm/s, protection category IP 20

#### Control

- Integrated microprocessor control in separate housing, with integrated Open-½ / Open-Stop-Close membrane push button and miniature lock
- Adjustable power limit
- Protection category IP 65 (jet-water protected)
- Connection cable with CEE plug IP 44 (splash-water protected)
- Control fitting directly next to the sectional door

#### Boom FS 60

- Self-supporting steel guide with polyurethane toothed belt and steel wires, plastic slide carriage, return pulley with ball-bearing, operator disc with slide bearing, 1-part, completely pre-assembled

#### Function

- Open and close with impulse
- Any second opening height ½ / Open

- Automatic timer (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)
- Prepared for traffic control (only in conjunction with activating kit for warning light and photocell / light grille or VL 1-LE / VL 2-LE)
- Soft start and soft stop

#### Standard equipment

- Quick release operated from the inside, connecting lead with CEE plug, second suspension for boom FS 60, anti-lift kit as safety equipment
- Universal installation bracket for up-and-over doors and sectional doors!

#### Housing

- Aluminium and plastic

#### Temperature range

- From –20 °C to 60 °C

Without radio remote control!  
Accessories see page 69.

#### Notice:

The use of a fitting bracket is mandatory! Installation of a photocell is required if the automatic timer is activated!

	SupraMatic HT
	SupraMatic HT on request
	SupraMatic HT not possible

#### Notices:

- Only for doors with 2 torsion springs with spring safety device!
- Please note the technical manual! Retrofitting of operators and controls on existing door systems on request.
- In conjunction with SupraMatic HT, control 360 only provides a total current of 300 mA for connecting accessories. An additional power supply unit may have to be ordered depending on the accessories. An overview of the power required by the accessories can be found in the dealer forum!

# Accessories for operator SupraMatic HT for industrial sectional doors

## Series 3

### With external control 360 in industrial control housing

Required accessories		Article no.	€
Fitting bracket for sectional doors or doors of other makes *		639060	48
For door section heights < 375 (shortened on-site) and door section heights < 580 mm			
Fitting bracket for sectional doors or doors of other makes *		639071	52
For door section heights ≥ 580 mm			
* Individual parts of the universal installation bracket will not be taken back.			
Control elements		Article no.	€
All-pole switch-off main switch in control housing, omission of mains lead with CEE plug	Surcharge	637105	70
Lockable control with profile half cylinder	Surcharge	637100	70
Mains lead 1.2 m with 230 V CEE plug, for controls with main switch		635486	17,80
Closing edge safety devices		Article no.	€
Closing edge safety device with optosensors, complete	Surcharge	637725	136
Closing edge safety device with VL 1-LE-300, complete			
<b>Notice:</b> Not possible in combination with track applications L / LD with swivel mechanism. A VL 2-LE must be selected for these applications.	1) Surcharge	637726	136
Closing edge safety device with VL 2-LE-300, complete; compulsory for doors with wicket door with trip-free threshold (wicket door contact, article no. 637110, required)	1) Surcharge	637727	277
Wicket door contact (SKS or AT 3-300 required)	Surcharge	637110	82
Limit switch for night lock (in conjunction with a closing edge safety device or AT3-300)		637016	54
Roller limit switch for night lock if fitting without door leaf branch boxes (SKS)		637063	82
Activating kit AT3-300, for doors with wicket door and high threshold rail		637744	147
Photocells		Article no.	€
Weather protective covers for photocells see page 85.			
One-way photocell EL 301 for floor fitting (for use in interiors and exteriors)	1)	436313	118
One-way photocell EL 51 (for use in interiors and exteriors)	1)	637023	167
One-way photocell EL 51 for fitting to top of industrial frames, sturdy bracket	1)	635340	167
One-way photocell EL 51 for fitting to bottom of industrial frames	1)	635341	167
One-way photocell EL 61, (for use in extremely wet areas, IP 67, powerful jet-water protected)	1)	637222	568
Reflection photocell * RL 52 as a command unit (for use in dry interiors)		637084	202
Reflection photocell * RL 300, industrial floor fitting (for use in dry interiors)		635022	195
Reflection photocell * RL 300, for fitting to top of industrial frames, sturdy bracket (for use in dry interiors)		436717	195
<b>* Notice:</b> Reflective objects, e.g. Reflective strips on clothing or vehicles, might not be recognised by the reflection photocell.			
Overview of combination options for optical safety equipment			See page 88
Activating kit for warning lights (photocell / light grille required)		Article no.	€
Activating kit for warning lights ZS 360 / 400 with multi-function circuit board and 2 yellow LED traffic lights, without extension housing		637530	328
Activating kit for warning lights ZS 360 with multi-function circuit board, 2 yellow LED traffic lights and weekly timer ZSU 2, without extension housing		637780	504
Activating kit with 2 LED traffic lights, without extension housing	2-arm red / green (230 V / 50 Hz)	637731	475
	1-arm red / green (24 V DC)	638955	475
Activating kit for warning lights MP 360 with 2 LED traffic lights and weekly timer ZSU 2, without extension housing	2-arm red / green (230 V / 50 Hz)	637779	771
	1-arm red / green (24 V DC)	638956	771
1) Not in conjunction with light grille			
Additional accessories			See pages 72 – 86

# Accessories for operator SupraMatic HT for industrial sectional doors

## Series 3

### With external control 360 in industrial control housing

Additional accessories	Article no.	€
Power supply unit, input voltage 230 V AC, output voltage 24 V DC / 24 W	4548491	<b>60</b>
Power supply unit connection accessories (article no. 4548491)	636356	<b>21</b>
Adjustable suspension for side guide (257 – 1516 mm)	636945	<b>73</b>
Magnet switch with fixing material, for electric locking with air lock doors or loading ramps	436339	<b>73</b>
Multi-function circuit board with 2 relays (programmable)	637026	<b>107</b>
Circuit board for limit switch reporting with 2 relays (only in combination with multi-function circuit board, traffic control or central control)	637028	<b>58</b>
Circuit board for central control / smoke detector device	637243	<b>112</b>
Summer / winter operation activating kit with function report	637036	<b>404</b>
Extension housing for industrial door controls (semi-housing)	637014	<b>68</b>
Double housing for control for extremely wet areas, IP 66 (powerful jet-water protected)	637035	<b>450</b>
NET 2 emergency release for sectional doors (handle set required)	437183	<b>37</b>
NET 3 emergency release for double-skinned sectional doors without handle set, release via locking cylinder, drill hole Ø 13 mm, cable length 1.5 m	437149	<b>35</b>
NET 13 emergency release sleeve for door leaf thickness > 42 mm, length 100 mm, drill hole Ø 13 mm	439782	<b>12,80</b>
<b>Notice:</b> Emergency release NET 3 (article no. 437149) must be ordered separately.		
Additional accessories	See pages 72 – 86	

# Notes and sketches

# Operator accessories

WA 300, WA 400, WA 400 M, WA 500 FU, WA 500 M-FU, ITO 400, ITO 500 FU, SupraMatic HT and controls

Preferred combinations are specified in the table; further combinations are possible under certain prerequisites.  
If applicable, ask your specialist adviser.

Short designation		Description	Article no.	€/ each	
<b>Receiver 868 MHz</b>					
HE 3-MCX BS		2-channel receiver with external antenna, frequency 868 MHz, operating voltage 24 V DC, in a separate housing with 7 m connecting lead, 4-wire, plug-in type	436722	<b>146</b>	
HE 3 BS		2-channel receiver, frequency 868 MHz, operating voltage 24 V DC, in a separate housing with 0.5 m connecting lead, 4-wire, plug-in type	436721	<b>97</b>	
HEI 3 BS		2-channel receiver, frequency 868 MHz, IP 65, operating voltage 24 V DC, with 7 m connecting lead, 4-wire.	436720	<b>110</b>	
ESE-MCX BS		5-channel bi-directional receiver (e.g. choice of direction and status feedback) with external antenna, 5 functions, 868 MHz, operating voltage 24 V DC, in separate housing (only for dry rooms) with 7 m connecting lead, 4-wire, plug-in type	436738	<b>146</b>	
ESE BS		5-channel bi-directional receiver (e.g. Choice of direction and status feedback), 5 functions, 868 MHz, operating voltage 24 V DC, in separate housing (only for dry rooms) with 0.5 m connecting lead, 4-wire, plug-in type	436723	<b>110</b>	
ESE BS HCP		5-channel bidirectional receiver, BiSecur with bus interface for a steady range, if necessary due to structural conditions, with 0.5 m connecting lead, with system plug, housing: plastic, protection category: only for dry rooms, temperature range: -20 °C to +60 °C, operating voltage: 24 V DC, function: choice of direction, impulse, partial opening, status feedback, dimensions (W x H x D): 135 x 30 x 32 mm	4511840	<b>116</b>	
ESE MCX BS HCP		5-channel bidirectional receiver, BiSecur with bus interface for a steady range, if necessary due to structural conditions, with 7 m connecting lead, with system plug, housing: plastic, protection category: only for dry rooms, temperature range: -20 °C to +60 °C, operating voltage: 24 V DC, function: choice of direction, impulse, partial opening, status feedback, additionally with tamper-proof antenna for outdoor use, dimensions (W x H x D): 135 x 30 x 32 mm	4511842	<b>151</b>	
ESEI BS		5-channel bi-directional receiver (e.g. Choice of direction and status feedback), 5 functions, 868 MHz, operating voltage 24 V DC, in separate housing (IP 65) with 7 m connecting lead, 4-wire, plug-in type	436740	<b>124</b>	
ESEI BS HCP		5-channel bidirectional receiver, BiSecur with bus interface for a steady range, if necessary due to structural conditions, with 7 m connecting lead, with system plug, housing: aluminium with plastic caps, protection category: IP 65, temperature range: -20 °C to +60 °C, operating voltage: 24 V DC, function: choice of direction, impulse, partial opening, status feedback, dimensions (W x H x D): 140 x 30 x 32 mm	4511841	<b>130</b>	
HER 1 BS		1-channel relay receiver with status feedback (of the relay) via HS 5 HS or optionally app (gateway required), with volt-free relay output, frequency 868 MHz, IP 65, operating voltage: 24 V DC / 230 – 240 V AC, without connecting lead	436724	<b>141</b>	
HER 2 BS		2-channel relay receiver with status feedback (of the relays) via HS 5 BS or optionally app (gateway required), with 2 volt-free relay outputs, frequency 868 MHz, IP 65, operating voltage: 24 V DC / 230 – 240 V AC, without connecting lead, external tamper-proof antenna with 2 m connecting lead	436725	<b>204</b>	
HER 4 BS		4-channel relay receiver with status feedback (of the relays) via HS 5 HS or optionally app (gateway required), with 4 volt-free relay outputs, frequency 868 MHz, IP 65, operating voltage 24 V DC / 230 – 240 V AC, without connecting lead	436726	<b>226</b>	
HEU 2 BS		2-channel recessed receiver, frequency 868 MHz, targeted On / Off function, IP 20, operating voltage 100 – 240 V AC	437378	<b>100</b>	
HET-E2 24 BS		2-channel relay receiver with status feedback, for choosing direction (Open and Close) and limit switch reporting (can be connected to volt-free inputs on the HET) via HS 5 BS, or optionally app (gateway required), frequency 868 MHz, protection category IP 65, operating voltage: 24 V DC	436743	<b>110</b>	
<b>Collective garage receiver 868 MHz</b>					
SGE 1		Collective garage receiver for Hörmann door operators and operators of other makes or for easy and clear management of up to 1000 hand transmitter codings (e.g. in underground garages), with 2 volt-free relay outputs, incl. SD card, in separate housing, protection category IP 65, operating voltage 24 V DC, protected against incorrect polarity	637625	<b>313</b>	
SGP 1		Hand transmitter programming device for SGE 1, for hand transmitter coding including PC software, hand transmitters can be programmed and read out.	637640	<b>273</b>	
SGE 1 and SGP 1 set		Consisting of a collective garage receiver SGE 1 and hand transmitter programming device SGP 1	637641	<b>543</b>	
<b>Pre-programming for hand transmitters</b>					
For SGE 1, incl. SD card; hand transmitters can be pre-programmed as desired. <b>Notice:</b> Prices do not include the hand transmitters!					
Pre-programming of hand transmitters			Surcharge each	<b>2,60</b>	

- = Combination options
- ◉ = Can also be used with other product series
- 1 = Only with retrofitting to impulse control (after technical inspection)
- 2 = For choosing direction
- 3 = For 2-way traffic system or controlling a second opening height
- 4 = UAP 1 required
- 5 = PSA, HOR 1, UAP required

- 6 = Only with automatic timer
- 7 = UAP-300; HOR-300 required
- 8 = Multi-function circuit board, travel limit circuit board, traffic control circuit board required
- 9 = Not for controls A 445 and A 460
- 10 = Only in conjunction with a radio receiver

Short designation	Description	Article no.	€/ each	
<b>868 MHz hand transmitters – only in conjunction with a receiver</b>				
BiSecur hand transmitters are downward compatible with 868 MHz fixed code receivers				
HS 1 BS	 1-button hand transmitter, impulse, incl. battery, with chrome-plated zinc die-cast caps	Black (textured surface)	4511720	<b>73</b>
HS 4 BS	 4-button hand transmitter, impulse, incl. battery, with chrome-plated zinc die-cast caps	Black (textured surface)	4511724	<b>73</b>
HS 5 BS	 5-button hand transmitter, impulse, incl. battery, with chrome-plated zinc die-cast caps	Black (high-gloss)	436752	<b>86</b>
		White (high-gloss)	436753	<b>86</b>
		Black (textured surface)	436946	<b>86</b>
HSE 1 BS	 1-button micro hand transmitter, impulse, incl. key ring and battery, with chrome-plated zinc die-cast caps	Black (textured surface)	4511728	<b>73</b>
HSE 4 BS	 4-button micro hand transmitter, impulse, incl. key ring and battery, with chrome-plated zinc die-cast caps	Black (textured surface)	4511732	<b>73</b>
HSE 4 BS	 4-button micro hand transmitter, impulse, incl. key ring and battery, with plastic caps in the same colour as the hand transmitter	Black (textured surface)	4511736	<b>66</b>
HSS 4 BS	 4-button security hand transmitter, impulse, incl. battery, additional function: copy protection for hand transmitter coding (cannot be taught in)	Red (high gloss)	436756	<b>117</b>
	Hand transmitter station for BiSecur hand transmitters HS 1 BS, HS 4 BS and HS 5 BS	Black (high-gloss)	436691	<b>9,50</b>
	Hand transmitter holder incl. visor clip for BiSecur hand transmitters HS 1 BS, HS 4 BS and HS 5 BS		436698	<b>8,50</b>
	Hand transmitter holder incl. visor clip for BiSecur hand transmitters HSE 1 BS and HSE 2 BS		437006	<b>8,5</b>
	Hand transmitter sleeve, black, for BiSecur hand transmitter HSE		4510869	<b>7,40</b>
FSM 2 BS	 2-channel radio transmitter module in housing		436786	<b>114</b>
<b>868 MHz industrial hand transmitters – only in conjunction with a receiver</b>				
HSI BS	 Industrial hand transmitter for controlling up to 1000 receivers		436789	<b>204</b>
	Wall holder for industrial hand transmitter HSI/HSI BS, including fixing material		637635	<b>15,50</b>
	Protective bag for industrial hand transmitter HSI/HSI BS, including clip		637636	<b>39</b>
	Copy cable with software, for coding industrial hand transmitters HSI/HSI BS or saving data on a PC		637637	<b>26</b>
	USB adapter on Com port		637634	<b>35</b>
	Connection cable for industrial hand transmitters HSI/HSI BS, for external voltage supply, for connecting to a forklift or another external power supply		637638	<b>8,5</b>
HSI 6 BS	 Industrial hand transmitter for controlling up to 6 receivers		4511801	<b>114</b>
	Hand transmitter holder for HSI 6 BS, incl. fitting accessories for fitting to wall or box frame		437383	<b>8,5</b>
HSI 15 BS	 Industrial hand transmitter for controlling up to 15 receivers		4511802	<b>164</b>
	Hand transmitter holder for HSI 15 BS, incl. fitting accessories for fitting to wall or box frame		437384	<b>11,90</b>
<b>Key switches, each with 3 keys</b>				
ESU 30	Key switch (recessed, impulse Open / Close, without connecting lead)		436110	<b>49</b>
ESA 30	Key switch (surface-mounted, impulse Open / Close, without connecting lead)		436111	<b>52</b>
STUP 50	Key switch (recessed, impulse Open / Close, with 2 m connecting lead, 2-wire)		4511648	<b>58</b>
STAP 50	Key switch (surface-mounted, impulse Open / Close, with 2 m connecting lead, 2-wire)		4511650	<b>61</b>

Short designation	Description	Article no.	€/ each	
	<b>Cylinders with keys to pass for Hörmann key switches</b>			
	Profile half cylinder 30.5 + 10 mm, lock plate lug 0°, fixed, 2 units with keys to pass	436120	<b>40</b>	
	Profile half cylinder 30.5 + 10 mm, lock plate lug 0°, fixed, 3 units with keys to pass	436121	<b>52</b>	
	Profile half cylinders with keys to pass in quantities larger than 3	On request		
	<b>SmartControl</b>			
SmartControl	SmartControl gateway Web-based solution for remote support of sectional doors via the SmartControl portal. Secure data transfer and management via Deutsche Telekom mobile network and servers. Simple overview of all door-relevant data as well as prompt and clear information transfer.	4514094	<b>329</b>	
	<b>Notice:</b> Only possible in conjunction with article no. 639351!			
	Annual usage fees for SmartControl per year The mobile connection required for SmartControl is made via the Deutsche Telekom mobile network using mobile radio standards 2G and 3G. Other mobile radio standards / networks or other mobile radio network operators cannot be used for SmartControl. The use of the required mobile radio connection requires the conclusion of a contract for the provision of the mobile radio connection between the owner / operator and us, which is separate from the purchase of the SmartControl gateways. In this respect, we solely provide the services of Deutsche Telekom for use and accept no liability, in particular for disruptions or failures caused by the services of Deutsche Telekom. The minimum contract term is 5 years and the annual usage fee is charged yearly in advance.	639351	<b>69</b>	
	<b>KNX gateway</b>			
KNX gateway	Gateway for controlling Hörmann operators and controls via the KNX building automation With 10 cm connecting lead with system plug, KNX bus line, protection category: only for dry rooms, temperature range: -20 °C to +60 °C, operating voltage: 24 V DC, housing: plastic, colour: Light grey RAL 7035, dimensions (W × H × D): 44 × 29 × 15 mm, system requirements KNX, management via KNX (ETS 5 from version 5.7.3 or ETS 6)	4511630	<b>131</b>	
	<b>Bluetooth® receiver</b>			
HET/S 24 BLE	Receiver for the control of external consumers via Bluetooth®, to control (impulse) Hörmann operators / operators of other makes, with 2 volt-free relays, with 7 m connecting lead, 4-wire, protection category: IP 44, temperature range: -20 °C to +40 °C, operating voltage: 12 – 24 V DC, 12 V AC, switching capacity: 30 V DC / 2.5 A (resistive load) Function: On / off, impulse (0.5 s), dimensions (W × H × D): 110 × 45 × 40 mm System requirements: – iOS devices from version 9.0 – Android devices from version 5.0 – Bluetooth 4.0 * Function and availability depend on the respective end device and app version (description text in the App Store)	4511827	<b>102</b>	
Bluetooth® antenna BTA 800	External antenna for receiver HET / S 24 BLE to increase the range, with 0.8 m connecting lead, protection category: IP 44, dimensions (W × H × D): 80 × 80 × 35 mm	4511829	<b>70</b>	
	<b>Hörmann GSM Control</b>			
GSM Control	Opening of the system via telephone call, receipt of status or malfunction information via text message, no limits regarding the distance, easy parameterisation with the enclosed software or text message commands, up to 1000 authorised users (telephone numbers) can be stored, telephone calls are free of charge for the users, 100 – 240 V AC, 50 / 60 Hz, 2 volt-free normally open contacts (max. switching output 5 A), 4 digital inputs (freely configurable), temperature range -20 °C to +60 °C, protection category IP 65, transmission channel 4G / 3G / 2G / GSM, frequency range UMTS 900 / 1200 MHz, GSM / GPRS 900 / 1800 MHz	639782	<b>543</b>

Short designation	Description	Article no.	€/ each	
	<b>Code switch</b> BiSecur radio code switches are downward compatible with 868 MHz fixed code receivers			
CTR 1b-1	Code switch with 1 relay output, impulse to control one operator, illuminated keypad, 230 V AC or 24 V AC/DC, without connecting lead Power supply (for connecting leads, see page 82): For 230 V AC, use connecting lead ZL 1; for 24 AC/DC and for providing impulse to operator, use connecting lead ASL.	4511631	<b>175</b>	
CTR 3b-1	Code switch with 3 separate relay outputs, impulse to control two operators and / or outdoor lighting, illuminated keypad, 230 V AC or 24 V AC/DC, without connecting lead Power supply (for connecting leads, see page 82): For 230 V AC, use connecting lead ZL 1; for 24 AC/DC and for providing impulse to operator, use connecting lead ASL.	4511632	<b>201</b>	
CTV 3-1	Code switch with keypad protected against vandalism, with 3 separate relay outputs, impulse to control two operators and / or outdoor lighting, 230 V AC or 24 V AC/DC, without connecting lead Power supply (for connecting leads, see page 82): For 230 V AC, use connecting lead ZL 1; for 24 AC/DC and for providing impulse to operator, use connecting lead ASL.	4511633	<b>240</b>	
CTP 3-1	Code switch with capacitive, illuminated keypad, with 3 separate relay outputs, impulse to control two operators and / or outdoor lighting, 230 V AC or 24 V AC/DC, without connecting lead Power supply (for connecting leads, see page 82): For 230 V AC, use connecting lead ZL 1; for 24 AC/DC and for providing impulse to operator, use connecting lead ASL.	4511634	<b>240</b>	
CTR 1d	Code switch with 1 relay output, impulse to control one operator, keypad protected by a hinged panel, 230 V AC or 24 V DC, without connecting lead Notice: Use a mains adapter (article no. 436109, page 82) for a 230 V AC power supply.	436355	<b>117</b>	
CTR 3d	Code switch with 3 separate relay outputs, impulse to control two operators and / or outdoor lighting, keypad protected by a hinged panel, 230 V AC or 24 V DC, without connecting lead	436390	<b>154</b>	
FCT 3-1 BS	 Radio code switch for controlling up to 3 operators, illuminated keypad, protection category: IP 54, housing: plastic, colour Light grey RAL 7040, incl. battery	4511856	<b>95</b>	
FCT 10-1 BS	 Radio code switch for controlling up to 10 operators, illuminated keypad, hinged cover, protection category: IP 54, housing: plastic, painted White aluminium RAL 9006, incl. battery	4511861	<b>143</b>	
	<b>Transponder key switches</b>			
TTR 1000-1	Non-contact transponder key switch, impulse, 230 V AC or 24 V AC/DC, without connecting lead, incl. 1 transponder key and 1 transponder card, can be extended with max. 1 input unit (TTRE-1). Power supply: For 230 V AC, use connecting lead ZL 1.	4511643	<b>240</b>	
TTRE-1	Additional reader for extension of the transponder key switch TTR 1000-1	4511644	<b>119</b>	
TS	Transponder key for transponder key switches TTR 1000-1 / TTRE-1	4510023	<b>16,70</b>	
TL 1000	Transponder card for transponder key switches TTR 1000-1 / TTRE-1	437011	<b>16,70</b>	
ZBG 1-1	Spacer bracket (required for fitting the transponder key switch TTR 1000-1 / TTRE-1 to metal)	4511694	<b>46</b>	
	<b>Finger-scan</b> BiSecur radio finger-scans are downward compatible with 868 MHz fixed code receivers			
FFL 25 BS	 Radio finger-scan BiSecur, impulse for controlling 2 operators by means of fingerprint, up to 25 fingerprints can be taught in, cannot be deleted individually, hinged cover, activation by opening the cover or by pressing the "ON" button; protection category: IP 54, housing: plastic, painted White aluminium RAL 9006, incl. battery	4511870	<b>189</b>	
FL 150	Finger-scan, impulse, to control door operators via fingerprint, 150 fingerprints can be taught in (can be individually deleted), connecting voltage 230 V	4511640	<b>514</b>	

- = Combination options
- ◉ = Can also be used with other product series
- 1 = Only with retrofitting to impulse control (after technical inspection)
- 2 = For choosing direction
- 3 = For 2-way traffic system or controlling a second opening height
- 4 = UAP 1 required
- 5 = PSA, HOR 1, UAP required
- 6 = Only with automatic timer
- 7 = UAP-300; HOR-300 required
- 8 = Multi-function circuit board, travel limit circuit board, traffic control circuit board required
- 9 = Not for controls A 445 and A 460
- 10 = Only in conjunction with a radio receiver

Short designation	Description	Article no.	€/ each	
	<b>Key switch posts (cable extension may be required)</b>			
STN 1	Key switch post to hold 1 command unit With screw base for fitting to the surface, Surface finish in White aluminium based on RAL 9006, Dimensions: height 1050 mm, tube 90 × 90 mm <b>Command units are not included in the scope of delivery.</b>	638975	<b>235</b>	
STN 1-B	Key switch post to hold 1 command unit To set in concrete (set-in-concrete version) Surface finish in White aluminium based on RAL 9006, Dimensions: height 1050 mm, tube 90 × 90 mm <b>Command units are not included in the scope of delivery.</b>	638976	<b>235</b>	
STN 1-1	Key switch post to hold 2 command units or 1 command unit and 1 warning light With screw base for fitting to the surface, Surface finish in White aluminium based on RAL 9006, Dimensions: height 1200 mm, tube 90 × 90 mm <b>Command units / warning lights are not included in the scope of delivery.</b>	638977	<b>292</b>	
STN 1-1 B	Key switch post to hold 2 command units or 1 command unit and 1 warning light To set in concrete (set-in-concrete version) Surface finish in White aluminium based on RAL 9006, Dimensions: height 1200 mm, tube 90 × 90 mm <b>Command units / warning lights are not included in the scope of delivery.</b>	638978	<b>292</b>	
STI 1	Key switch post without control (to hold max. 2 controls and an extension housing)	437083	<b>252</b>	
STL 2	Key switch post set without command units for Hörmann light grille HLG-V 2600 mm (article no. 638458)	638904	<b>345</b>	
	<b>Cable extensions</b>			
	Special length of system cable between frame box and control	Surcharge per m	637070	<b>4,30</b>
	Special length motor control (not B 460 FU)	Surcharge per m	637080	<b>14,70</b>
	Special length motor control (B 460 FU)	Surcharge per m	637085	<b>14,70</b>
	<b>Connecting leads, 3-wire, 230 V</b>			
ZL 1	1.5 m length, 3 × 0.75 mm <sup>2</sup> with safety plug Suitable for power supply to the following devices: TTR 1000-1, CTR 1b-1, CTR 3b-1, CTV3-1 and CTP 3-1.	436127	<b>9,50</b>	
	<b>Connecting leads, 6-wire, only 24 V</b> (Suitable for impulse control of all buttons)			
ASL 2	2 m long, stripped on one end	436125	<b>8,50</b>	
ASL 10	10 m long, stripped on one end	436126	<b>17,80</b>	
ASL 50	50 m roll	436065	<b>54</b>	
	<b>Coiled cable</b> Special solutions for sectional doors (e.g. alarm contact or electric strike for wicket door etc.)			
	Coiled cable 7 × 0.25 mm <sup>2</sup> , up to 6 m	637527	<b>76</b>	
	Coiled cable 9 × 0.25 mm <sup>2</sup> , up to 6 m	4545155	<b>96</b>	
	<b>Mains adapter</b>			
	Mains adapter with Euro plug, 24 V DC, 330 mA	436109	<b>51</b>	
	<b>Connecting leads for dock leveller controls</b>			
	Dock leveller control connecting lead to operator control B, complete	638353	<b>17,80</b>	
	Dock leveller control connecting lead to operator control A, complete	638352	<b>19,90</b>	
	<b>Push button</b>			
DTH-R	Push button Open-Stop-Close	637713	<b>54</b>	
DTH-RM	Push button Open-Stop-Close, miniature lock	637714	<b>76</b>	
DTH-I	Push button Impulse-Stop-½ / Open	637715	<b>60</b>	
DTH-IM	Push button Impulse-Stop-½ / Open, miniature lock	637716	<b>80</b>	
DT 02	Push button, Impulse / Stop	639891	<b>60</b>	
DT 03	Push button Open-Stop-Close	639892	<b>78</b>	
DT 04	Push button, Open / Stop / Close / ½ Open	639886	<b>103</b>	
DTN A 30	Push button, Open / Stop / Close, can be switched off with emergency-off switch	639887	<b>107</b>	
DTP 02	Push button Impulse / Stop, lockable (profile half cylinder article no. 436122 required)	637044	<b>202</b>	
DTP 03	Push button Open / Stop / Close, lockable (profile half cylinder article no. 436122 required)	637045	<b>273</b>	
DTN 10	Emergency-off switch	639888	<b>80</b>	
DTG 01	Foot and mushroom button, opening device, protection category IP 67, press and hold	639890	<b>142</b>

Short designation	Description	Article no.	€/ each	
	<b>Pull switch / cantilever arm</b>			
ZT 2	Pull switch, impulse, with pull cord length of approx. 3200 mm, protection category IP 65	637510	<b>91</b>	
	Cantilever arm, extension adjustable from approx. 1600 mm to 3000 mm, without pull switch	637003	<b>235</b>	
	<b>Optional extras for photocells</b>			
	Weather protective cover for reflection photocells RL 30, RL 50, RL 52, RL 100 and RL 300, as well as one-way photocells EL 31, EL 51, EL 101, EL 301 or angular reflector (up to 8000 mm)  <b>Notice:</b> If two-sided protection is required, order 2 weather protective covers for each photocell set. Exception: If a reflector from 8000 mm is required, this item is required 1 x and art. no. 437076 is required 1 x.	437075	<b>11,90</b>	
	Weather protective cover for reflector 8000 – 12000 mm	437076	<b>9,50</b>	
LSE	Adapter print for 2-wire photocell to system jack	639562	<b>69</b>	
LSE 1	Photocell expander LSE 1 in housing (system jack)	436396	<b>76</b>	
LSE 2	Photocell expander LSE 2 in housing (2-wire photocell)	436380	<b>92</b>	
	<b>Timers</b>			
ZSU 2	Digital weekly timer in semi-housing, incl. data key	637061	<b>298</b>	
ZSJ 2	Yearly timer, 2-channel, in semi-housing, incl. data key	637079	<b>464</b>	
	Software and USB adapter for timers ZSU 2 and ZSJ 2 for the parameterisation of the data keys enclosed with the timers	637507	<b>171</b>	
	<b>Warning lights / warning light tube</b>			
Dual LED	LED double warning light for key switch post STN 1-1 / STN 1-1 B, red / green dual LED, 230 V AC	638979	<b>138</b>	
Triple LED	Triple LED warning light for key switch post STN 1-1 / STN 1-1 B, red / yellow / green triple LED, 24 V DC	639307	<b>138</b>	
TL40Srd	LED traffic light, red (230 V / 50 Hz), multi-function or travel limit circuit board required!	637534	<b>124</b>	
TL40Sgn	LED traffic light, green (230 V / 50 Hz), multi-function or travel limit circuit board required!	637535	<b>124</b>	
TL40Sye	LED traffic light, yellow (230 V / 50 Hz), multi-function or travel limit circuit board required!	637536	<b>112</b>	
TL40Srd / gn	LED traffic light, red / green (230 V / 50 Hz), multi-function or traffic control circuit board required!	637537	<b>208</b>	
TL40Srd / ye / gn	LED traffic light, red / yellow / green (24 V DC), 1-arm Multi-function or traffic control circuit board required!	637896	<b>195</b>	
LED-WLR	Warning light tube for fixing to the door as an additional warning during door travel, yellow light colour, operating voltage 24 V DC, protected against incorrect polarity, max. 1.8 W, protection category IP 44 Notice: AT 3 required for fastening to the door leaf	637624	<b>87</b>	
AT 3	Activating kit for door leaf, required for connecting an LED warning light tube, an electric door strike or a bolt / block reed contact.  <b>Notice:</b> Alternatively, a 7-wire or 9-wire coiled cable can be used instead of the 5-wire coiled cable included in the scope of delivery.	638296	<b>86</b>	
	Yellow rotating mirror warning light (230 V / 50 Hz), multi-function or travel limit circuit board required!	637184	<b>359</b>	
	Angle fitting for rotating mirror warning light	637182	<b>56</b>	
	Yellow flashing warning light (230 V / 50 Hz), multi-function or travel limit circuit board required!	637183	<b>228</b>	
	Angle fitting for flashing warning light	637181	<b>37</b>	
	<b>Optional extras</b>			
HLG-V	Extension set Hörmann light grille HLG as advance protection, incl. protective tube, height 2500 mm, range up to 10 m. Optional key switch post set (article no. 638904, see key switch posts) available.	638458	<b>948</b>	
LHF-1 BS	 Light flash control with BiSecur radio transmitter 868 MHz (radio receiver required)	436787	<b>444</b>	
RBM 2 E	Radar movement detector for Open door function, not a safety device	637484	<b>446</b>	
	Infrared remote control (for radar movement detector RBM 2 E)	637485	<b>138</b>	
	Roller limit switch for status query of the shootbolt in the frame, without coiled cable, not VdS-approved!	637063	<b>82</b>	
	Magnet switch VDS-class C Monitoring contact, door closed, e.g. for alarm systems	637675	<b>89</b>	
	Alarm horn, IP 33, connecting voltage 230 V AC, multi-function or travel limit circuit board required!	637197	<b>125</b>	
	Fitting struts for control and extension housing (frame fitting)	637696	<b>30</b>

# Operator accessories

WA 300, WA 400, WA 400 M, WA 500 FU, WA 500 M-FU, ITO 400, ITO 500 FU, SupraMatic HT and controls

Preferred combinations are specified in the table; further combinations are possible under certain prerequisites.  
If applicable, ask your specialist adviser.

Short designation	Description	Article no.	€/ each	
	<b>Induction loop detectors / pre-fabricated induction loops</b>			
DI 1 Pro	Induction loop detector in semi-housing without loop cable	637056	<b>463</b>	
DI 2 Pro	Induction loop detector in semi-housing without loop cable	637076	<b>589</b>	
	Loop cable for DI, 50 m roll	637059	<b>82</b>	
	<b>Motor protective switch (after technical clarification)</b>			
	Motor protective switch 1 – 1.6 A	635500	<b>120</b>	
	Motor protective switch 1.6 – 2.5 A	635501	<b>113</b>	
	Motor protective switch GV 2 ME 08, 2.5 – 4 A	635502	<b>120</b>	
	Motor protective switch 4 – 6.3 A	635503	<b>113</b>	
	Motor protective switch 6.3 – 10 A	635504	<b>119</b>	
	Motor protective switch housing IP 54	635505	<b>45</b>	
	<b>Emergency power supply for door travel after a power failure</b> (dependent on environmental influences)			
UPS	Emergency power supply to bridge power failures up to max. 8 hours and max. 4 door cycles within 2 hours (depending on temperature, etc.), protection category IP 20	639353	<b>2382</b>	

- = Combination options
- ◉ = Can also be used with other product series
- 1 = Only with retrofitting to impulse control (after technical inspection)
- 2 = For choosing direction
- 3 = For 2-way traffic system or controlling a second opening height
- 4 = UAP 1 required
- 5 = PSA, HOR 1, UAP required
- 6 = Only with automatic timer
- 7 = UAP-300; HOR-300 required
- 8 = Multi-function circuit board, travel limit circuit board, traffic control circuit board required
- 9 = Not for controls A 445 and A 460
- 10 = Only in conjunction with a radio receiver

	WA 300 With control		WA 400 / ITO 400 With control		WA 500 FU / ITO 500 FU With control		SupraMatic HT With control		General use ◉
	Integrated	External 360	A / B 445	A / B 460	545	560	Integrated	External 360

# Combination options for optical safety equipment

## Overview

### Combination options for optical safety equipment

- Combination possible
- Combination not possible

#### Notices:

- A maximum of only 2 combinations per row or column are possible!
- On-site, unwanted reflections can cause interference and malfunction of the safety devices. Solutions such as covering the reflective surfaces with matt adhesive tape have to be found on-site.

# Brand quality for residential and commercial construction

The family-owned company Hörmann offers all important construction components for building and renovating projects from a single source. We manufacture in highly-specialised factories using state-of-the-art production technologies. Furthermore, our employees work intensively on new products, continual further developments and improvements to details. The results are patents and unique products on the market.
